

Three Questions

Bethany Prantl
Client Care
Representative

1 Question: *Can you tell us about your role at BVNS?*

Bethany: As the first impression our clients have of BVNS, it is my responsibility to provide a professional and caring experience. My position also requires me to be an open and effective line of communication between the clients and members of our team.

2 Question: *That sounds like a lot of responsibility, can you tell us what you love about your position?*

Bethany: The very things that can make this position "tough" also provide the challenge and drive that helps me to improve my skills and provide the best care I can for both our patients and our clients. It is the interaction and personal contact with the patients and clients along with working with my fellow team members at BVNS that makes this a rewarding position, and is what I enjoy the most.

3 Question: *Enough about work, tell us about your life outside of work. What is interesting about Bethany Prantl?*

Bethany: I am always seeking new opportunities and experiences in life. My favorite word is YES. I also love live music, love to read, and love The Three Stooges, who never fail to make me laugh.
